

DESIGNING MEANINGFUL EXPERIENCES

About Design Integral

We don't just design spaces. We craft experiences that endure.

Who We Are

A multidisciplinary design consultancy crafting meaningful, functional, and emotionally resonant spaces and products.

What We Do

We translate business vision into tangible experiences — through structured strategy and creative design thinking.

Why It Matters

Every touchpoint shapes perception. We ensure yours builds trust, clarity, and lasting recall.

Air India - Exhibition - Mumbai

Our Philosophy

EXPERIENCE DESIGN AT THE CORE

**Great design is not just
seen — it is felt.**

Every space, product, and interaction must deliver trust,
clarity, and delight.

→ **User Journey Mapping**
Designing with the human at the centre

→ **Functional Intelligence**
Every element earns its place

→ **Emotional Resonance**
Spaces and products that people
remember

Our Services

Four disciplines. One integrated approach.

Baxter Experience Center - Bangalore

Air India - Exhibition - Mumbai

Modular Desking System

Theme Based Living - HomeLane

Service Design

- Customer Journey Mapping
- Process Design & Optimisation
- Experience Strategy

Experience Design

- Branded Environments
- Experience Centres

Industrial Design

- Product Concept Development
- Prototyping & Detailing
- Material & Finish Strategy

Residential Interiors

- Interior Design
- Space Planning
- Custom Furniture & Detailing

Our Approach

DISCOVER → DEFINE → DESIGN → DELIVER

Every great outcome begins with the right process.

Define

Frame problems with strategic insights.

Design

Develop concepts, visuals, and details.

Discover

Understand users, brand DNA, and goals.

Deliver

Execute with support and QA.

A structured methodology that ensures every project is rooted in purpose, shaped by insight, and delivered with precision.

OUR APPROACH

The 4D Methodology

A structured process rooted in purpose, shaped by insight, delivered with precision.

Discover

1

- Deep-dive into client brief, brand DNA, and business objectives
- Stakeholder interviews and user research
- Site analysis, competitive benchmarking
- Identifying unmet needs and latent opportunities

Design

3

- Concept ideation and creative exploration
- Spatial planning, visualisation, and mood boarding
- Iterative prototyping and design development
- Material, finish, and detail refinement

Define

2

- Synthesising research into clear problem statements
- Strategic framing and design principles
- Establishing success metrics and project scope
- Aligning all stakeholders on a shared vision

Deliver

4

- Execution oversight and site coordination
- Vendor and contractor management
- Quality assurance at every milestone
- Handover, review, and post-delivery support

LEADERSHIP

The Minds Behind Design Integral

FOUNDER & DESIGN PRINCIPAL

CASE STUDY

Design in Action

From brief to brilliance — how we work.

01

Client Objective

Understanding the brief, business goals, and end-user expectations

02

Design Challenge

Identifying constraints, spatial or functional gaps to bridge

03

Solution Approach

Concept development, iterative design, and material strategy

04

Final Outcome

Meeting expectations, Delivering the right Experience

Why Design Integral

Because great design is never accidental.

Experience-Driven Thinking

Human-centred design at every step

Deep Industry Expertise

20+ years across diverse domains

End-to-End Capability

From concept to quality delivery

Detail-Oriented Execution

No element is left to chance

Scalable Solutions

Built to grow with your business

Engagement Model

Flexible models designed to meet clients where they are — from strategic advisory to full turnkey delivery.

Design Consulting

Strategic advisory, audits, and
concept direction

Design + Execution Support

Concept through to site supervision
and delivery

Turnkey Design Solutions

Full end-to-end ownership —
selective projects

Every engagement is tailored. No two projects are the same.

Brands & Associations

Partnering with forward-thinking brands, developers, and institutions who believe in the power of thoughtful design.

Trusted by brands who believe design is a strategic advantage.

Design is about experiences people remember and trust.

Not just spaces. Not just products.

**Meaningful connections between people and the world
around them.**
